ANNUAL NEWSLETTER 2015

GALWAY PUBLIC LIBRARY

FROM THE DIRECTOR

Greetings to all Galway Central School District residents! It's been over a year since I came on board and I absolutely love this community and Library.

We are working hard to bring more programs that you need or want to the library. We have

been planning the Summer Reading Programs, "Every Hero Has a Story" & "Unmasked." These programs are designed to develop and harness a sense of empowerment, community and appreciation for the many heroes we have here in our community and within ourselves. We have created over 20 summer reading programs!

We want to help you and your children with their STEM, STEAM, creative and critical thinking skills. Recently we received a grant to pilot a program

that does just that!

Come check out our Tinker Tuesday and Tinker Thursday!

This year we have a new Summer Reading game called Oligopoly. It's designed for fun, reading and community connection. Stop in for more details!

We have had a great deal of success with our Volunteent & Voluntween programs here at the library. We are always delighted when our Tweens and Teens are involved in our future! Anyone interested in this program can email

mtuttle@sals.edu.

We are updating our website regularly with scheduled programs & community events, and printed brochures are available at the circulation desk!

This summer we celebrate our 17th anniversary! Your support made that possible. We count on our volunteers, patrons, Trustees, donors, and staff to keep the library moving in the right direction and giving you what you are looking for.

I look forward to seeing you soon!

~Michol Tuttle

A Letter From the Board of Trustees

Dear Friends,

2014 has been an exciting, challenging and a bit frightening year for those of us on the Galway Public Library Board of Trustees as we have moved toward our goal of building a new library.

Preliminary Architectural Plans Last Spring we met with community residents and our architects and talked about what you wanted in your new library. In June, the architects presented their preliminary plans based on those requests. Those plans are at the library, and if you haven't taken the time to look at them, please do. And if you see something you don't understand, or wish were different, please let us know. Even at this late date, ideas keep coming. We are truly delighted with your interest and concern.

SEQR Lead Agency We've met with the town and village officials and worked out our plans in conjunction

with their zoning requirements and have recently filed the SEQR forms - (the New York State Environmental Quality Review Act). We are now the lead agency for this activity and responsible for completing the SEQR process.

Dockstader Property We formed a community committee to decide the best use of the Dockstader property. Their advice was that as much as we'd like to keep the building, we would find it most difficult to renovate and maintain that space and build our new library at the same time. As a result, the property was placed on the market and was recently sold to a couple who hope to restore the home and live in it - right next to the new library - which they think will be a wonderful experience for their family!

Capital Campaign Committees During this same 12- month period, we've

formed a Steering Committee and a Public Relations Committee for the new building capital campaign. They are already making plans that will help us raise the money we need for the new building in addition to the referendum which we will hold in the fall.

Fundraising Events Several successful events have already been held - and more of them are on the way: the Rocking Horse that was hand-made and painted and delivered to its new home at Christmas Time, an event at Northshire Books, volunteer participation in the Lake George Polar Plunge, the Home Made Theater production of "The Man Who Came to Dinner" among them.

Special August Event on New Library Property Save the Date of Sunday Afternoon, August 23, for something Very Special at the new library site! We guarantee you and your family won't want to miss the performances by folk

singer Dan Berggren and Native American storyteller Joseph Bruchac! All of these activities, plus the regular support given us by the Friends of the Library, for both the current library and programs and our new library as well, are helping us plan for our future. Little by little, it's all coming together. We know, like us, you can't wait for more parking space, a larger work area with more computers, and a new common area where you can sit down and look at a book, or a newspaper. . . rooms so that two groups can read or hear speakers at a time . . . where your children can enjoy reading activities no matter how little or big they are, and where the latest in technology will help your teens keep up with their class-room research. The First Shovel will be in the ground very soon, and with your help, the new Galway Library will spring to life! We can hardly wait!

Mary Lynn Kopper
Secretary of the Board
