

TOSHIBA

A COMPACT DESIGN THAT LEAVES NOTHING OUT

Small to medium workgroups need to get a lot more done often using fewer resources and minimal space. That's the thinking behind the e-STUDIO3018A. Plenty of functions, lots of capacity, and a small footprint with a fresh, new look.

The e-STUDIO3018A includes all the features you would expect from a top quality MFP. A new tiltable, touch swipe 10.1" color panel works like a tablet so you can find whatever you need by just swiping your finger. A 300-sheet high-speed, high-capacity Dual-Scan Document Feeder (DSDF) produces up to 120 IPM simplex and 240 IPM duplex. A conventional RADF is available for less scan-intensive businesses.

Multi-Station Print Enabler allows users to send print jobs from their desktop and retrieve them at any convenient MFP by simply swiping their badge and authenticating at that device.

TOSHIBA

TOSHIBA TECHNOLOGY NEVER LOOKED BETTER

The Toshiba e-STUDIO3015AC can increase the efficiency of your workgroups, improve the professionalism of your presentations, and streamline the workflow of your organization. And, that's just for starters.

A 300-sheet high-speed, high-capacity Dual-Scan Document Feeder (DSDF) produces up to 120 IPM simplex and 240 IPM duplex. A conventional RADF is available for less scan-intensive businesses.

Toshiba has developed a customizable MFP to make your job easier. A new 10.1" tablet-style touch screen works intuitively, helping you find instructions, functions, and commands with the swipe of the finger. Toshiba's internally developed Multi-Station Print Enabler allows users to send print jobs from their desktop and retrieve them at any convenient MFP by simply swiping their badge and authenticating at that device.
