Hi James,

Thank you for thinking about a Green Jobs Green New York Study for the Galway Library. Green Jobs Green New York Energy Studies are available to Not for Profits and Small Businesses in New York State. If it turns out that the library is not a Not for Profit, or is associated with the municipality, have them give me call anyway. We have options that I can discuss with them.

I've attached the application form and the program fact sheet that NYSERDA developed. To move forward with a study, the library would need to submit the completed application, 12 months of utility history for the building and the customer cost share payment. The utility history should include both electricity and heating fuel, cost and usage information. The cost share amount is based on the number of Full Time Equivalent Employees and the tier structure is outlined on the fact sheet. The customer can contact me for payment instructions.

Please let me know if there are any questions and again, thank you for thinking of us!

Understand energy use and costs

Green Jobs – Green New York Energy Study

Your custom energy study will include:

- Comprehensive facility walk through
- Site staff interviews
- Utility bill analysis
- Fuel-neutral, unbiased evaluation of potential low-cost/no-cost and capital improvement energy efficiency upgrades
- Report that outlines potential energy and cost savings opportunities for your facility

Once the study is complete, we will help identify potential utility incentives and low-cost financing options so you can take the next steps toward implementing energy saving projects.

Customer Study Contribution

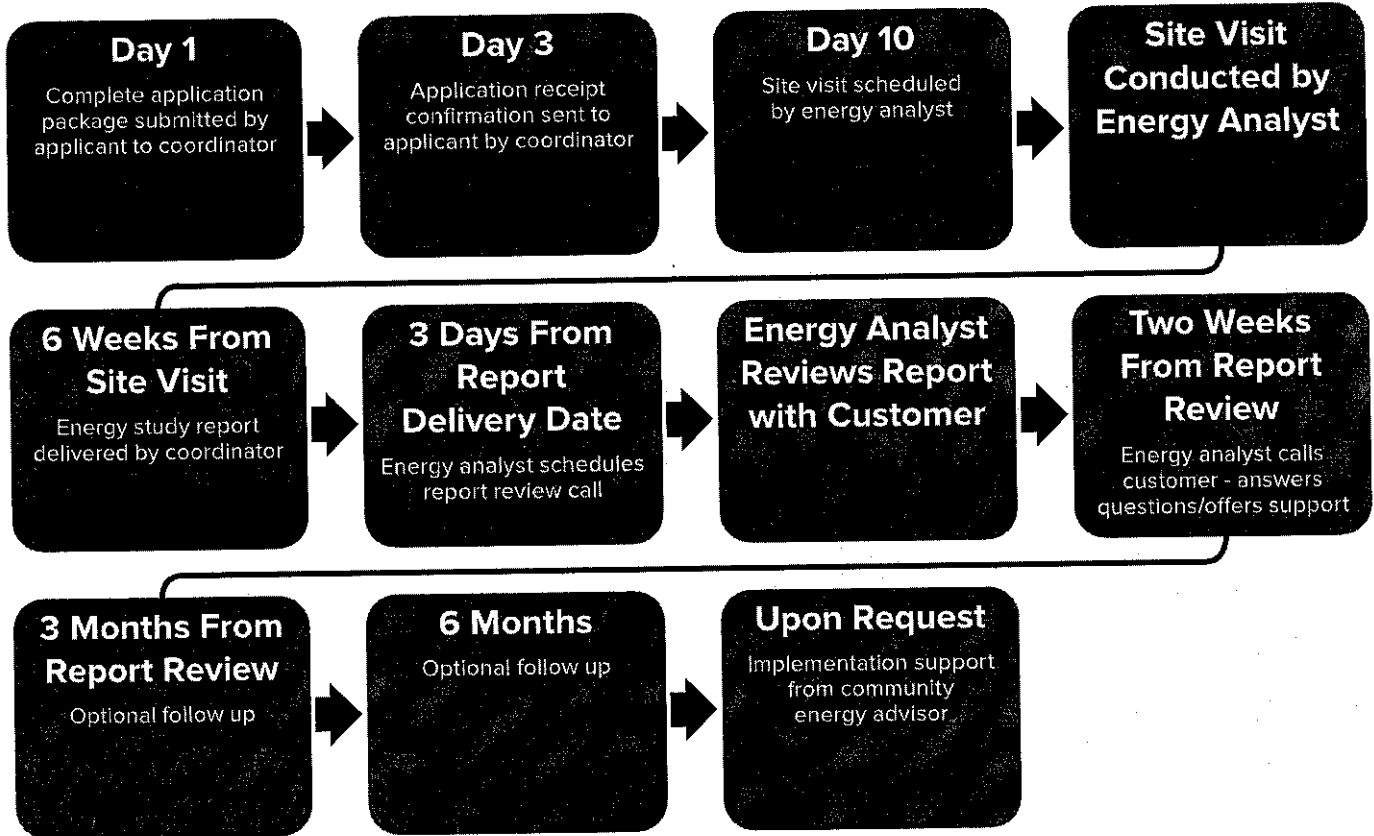

Customer FTE	Cost-Share per Building	
	Small Commercial	Not-For-Profit
10 FTE or less	\$100	\$100
Over 10 FTE and 50 FTE or less	\$250	\$250
Over 50 FTE and 100 FTE or less	\$500	\$500
Over 100 FTE	n/a	\$500

The cost of the study is subsidized by NYSERDA.
